

Shelter & NFI Sector Türkiye

Earthquake Response

18 January 2024

There are over 88,000 families living in informal sites across all affected provinces (DTM – Oct 23). A number of these sites will remain throughout the winter and beyond

January 12 - Narlica – Hatay

Agenda

- Situation Overview & ABC Updates
- TSS Presentation – Neighbourhood Profiling Findings
- IM Update on Tools and Reporting
- Winterization Coordination | Updates
- Hub level Coordination | Updates
- Technical Coordination | TWiG updates
- Strategic Advisory Group
- Partner's Updates

General Overview

- There are still **400 container** sites accommodating **over 670,000 individuals**.
- **1.5 million** individuals are receiving rent support.
- **220,000 containers** were distributed (**146,000 in sites**)
- Construction of **207,000 houses** is still ongoing; local authorities envision **150,000 houses** before the end of the year 2024 and **400,000 houses** in total before the end of next year.

Province	Number of people in formal tented sites	Number of HH in formal tented sites	Number of people in container sites	Number of HH in container sites (HH size 4)
Adiyaman	0	0	68,630	~17,000
Hatay	>4,000	>1,000	>220,000	>55,000
Kahramanmaraş	0	0	69,284	~24,000
Malatya	0	0	116,822	~29,000

Number of People and HH in container sites and formal tented sites

(As of 1st week of Jan 2024) Source AFAD

Foldable Containers in Rural Areas

Province	Number of foldable containers
Adiyaman	11,919
Hatay	13,159
Kahramanmaraş	13,150
Malatya	3,878

*From the 2nd week of January Source: AFAD
(from Hub Inter-Sectoral meetings)*

Situation overview | Humanitarian Shelter Response

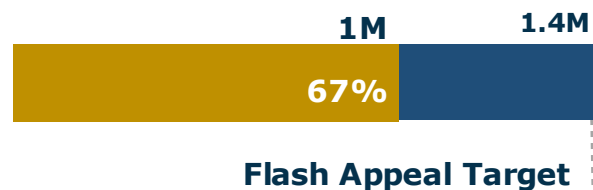

Achievements | Reach

This includes support in-kind handed over to the Government | Source: **ActivityInfo** (17/01/2024)

Improved living space

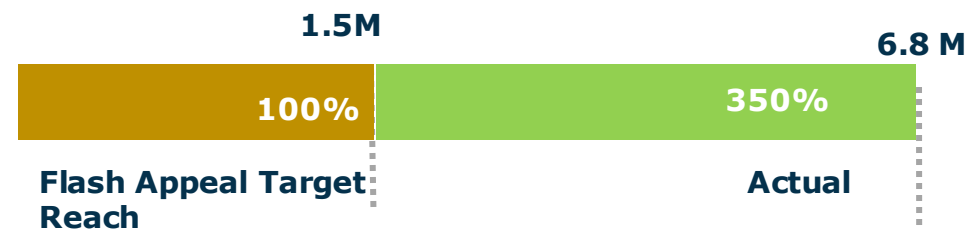

- **219,928** households
- **1.1 million** people

/ Essential Household Items

Support to resume domestic living

- **991,355** households
- **4.96 million** people

Temporary Settlement Support Sector

Türkiye Earthquake Response

18.01.2024

TSS Sector- Activity Menu

- TSS as sector lead ensures:
 - Coordination- Referrals- Info Management (site profiling, safety audits, neighborhood profiling, referrals, service mapping, CRFM)
 - Community Engagement (FGDs, Community meetings, Info Dissemination, awareness raising, community led projects)
 - Site Improvement (communal spaces , drainage, access, fire safety)
 - Distribution of communal NFIs and equipment (snow-kits, toolbox, fire extinguishers, info boards, heaters, solar lights, water heaters, complaint/suggestion boxes, disability, ramps IT equipment, furniture in communal spaces ACs)

Activities by the sector - Community Engagement/Referrals/Site Improvement/NFI Distribution

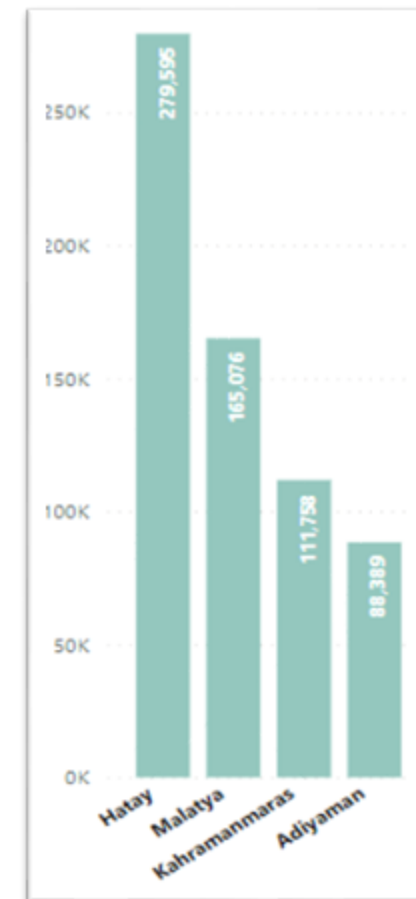

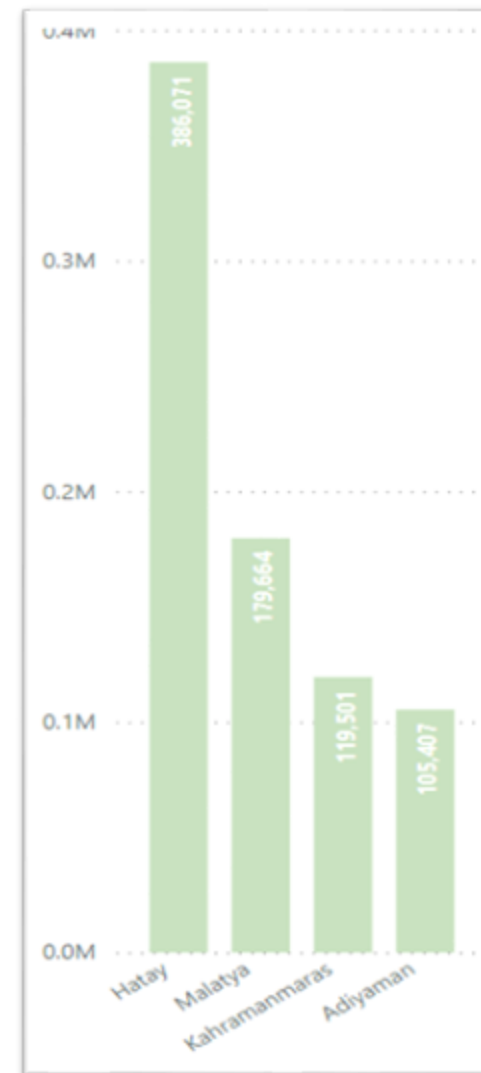

- TSS sector partners conducted mobile TSS activities in 3,606 informal sites and/or neighborhoods including awareness raising, information dissemination and profiling of needs and refer to other sectors benefiting estimated 25790 households and 101467 individuals.
- TSS sector partners completed 3,603 referrals that included both individual and group level referrals to different sectors during this reporting period-including WASH, Protection, Health, Shelter/NFI, cash, education etc.
- TSS sector partners as part of the winterization support distributed 33,151 communal NFIs such as fire extinguishers/ safety kits, lights, tool kits, snow kits, heaters, ACs, foldable ramps, information boards etc, benefiting an estimated 160,439 families and 659,620 individuals residing in temporary settlements.
- TSS sector partners installed and equipped 4 multipurpose communal spaces in Kahramanmaraş (Necip Fazıl Container Site), Adıyaman (K40 and K25 in Gölbaşı district) and Hatay (Uzumdali), also gravelled and covered one site with keystones 17.000 m².
- TSS sector partners as part of the site improvement activities proceed with the graveling of two container sites: I) Hatay Kırıkhan (Bahçelievler).

Neighborhood Profiling

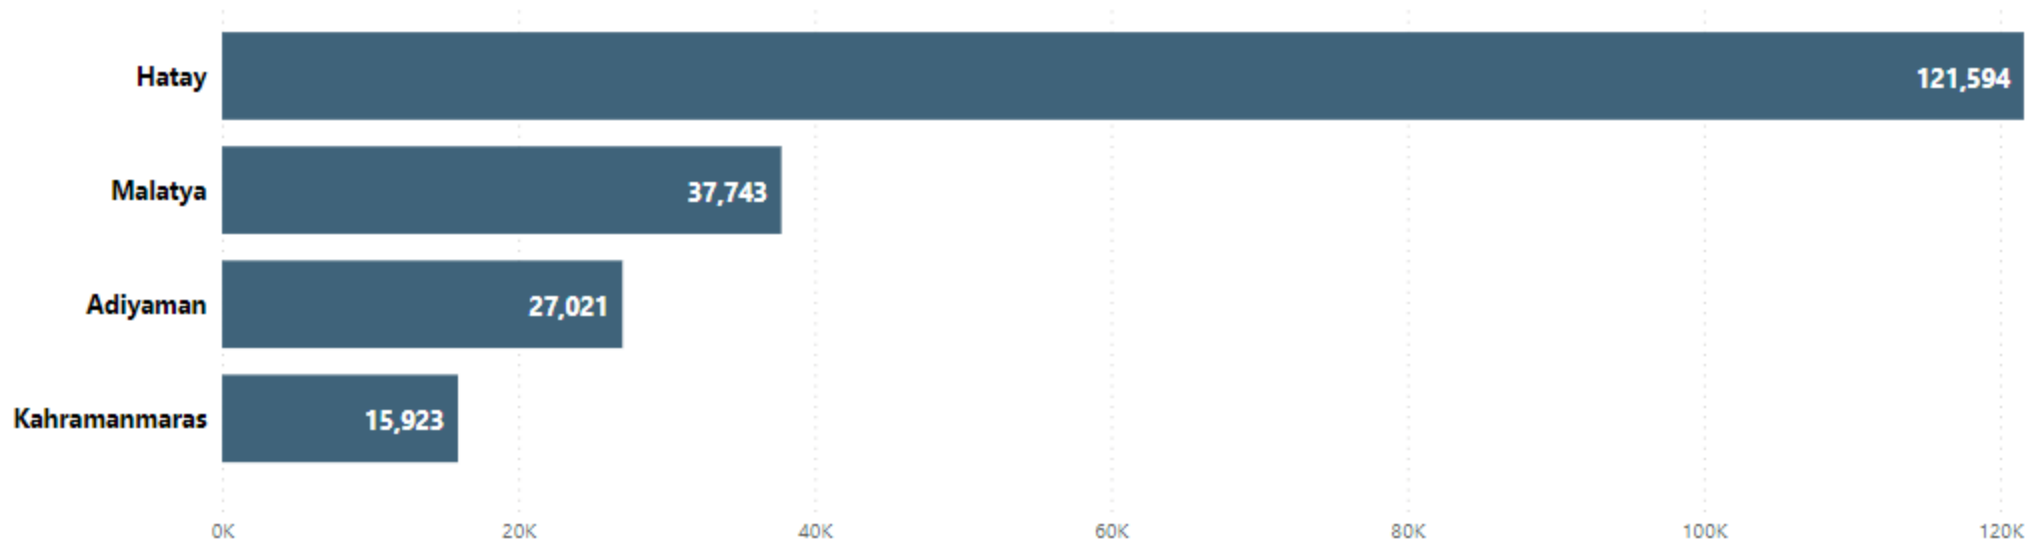

Neighborhood profiling activity was conducted during the period of 16 Nov-8 Dec 2023. The aim of the activity is to identify the patterns of the needs at the neighborhood level since the temporary settlements follow Area Based Approach. As TSS sector partners IOM, GHV, ACTED, StL and MSYD conducted the inter-sectoral data collection activity at the neighborhood level through key informants and based on the observation.

Total	Hatay	Adiyaman	Malatya	Kahramanmaras

Neighborhood Profiling-Destroyed and Heavily damaged houses

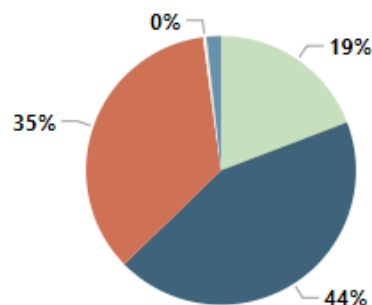

Neighborhood Profiling findings

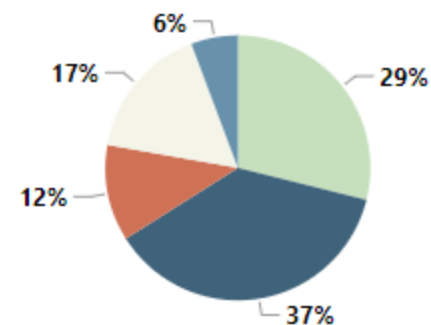

Temporary settlement types by province

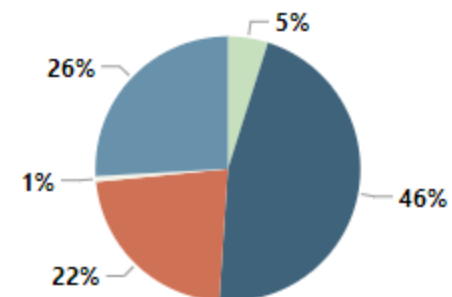

Hatay

Adiyaman

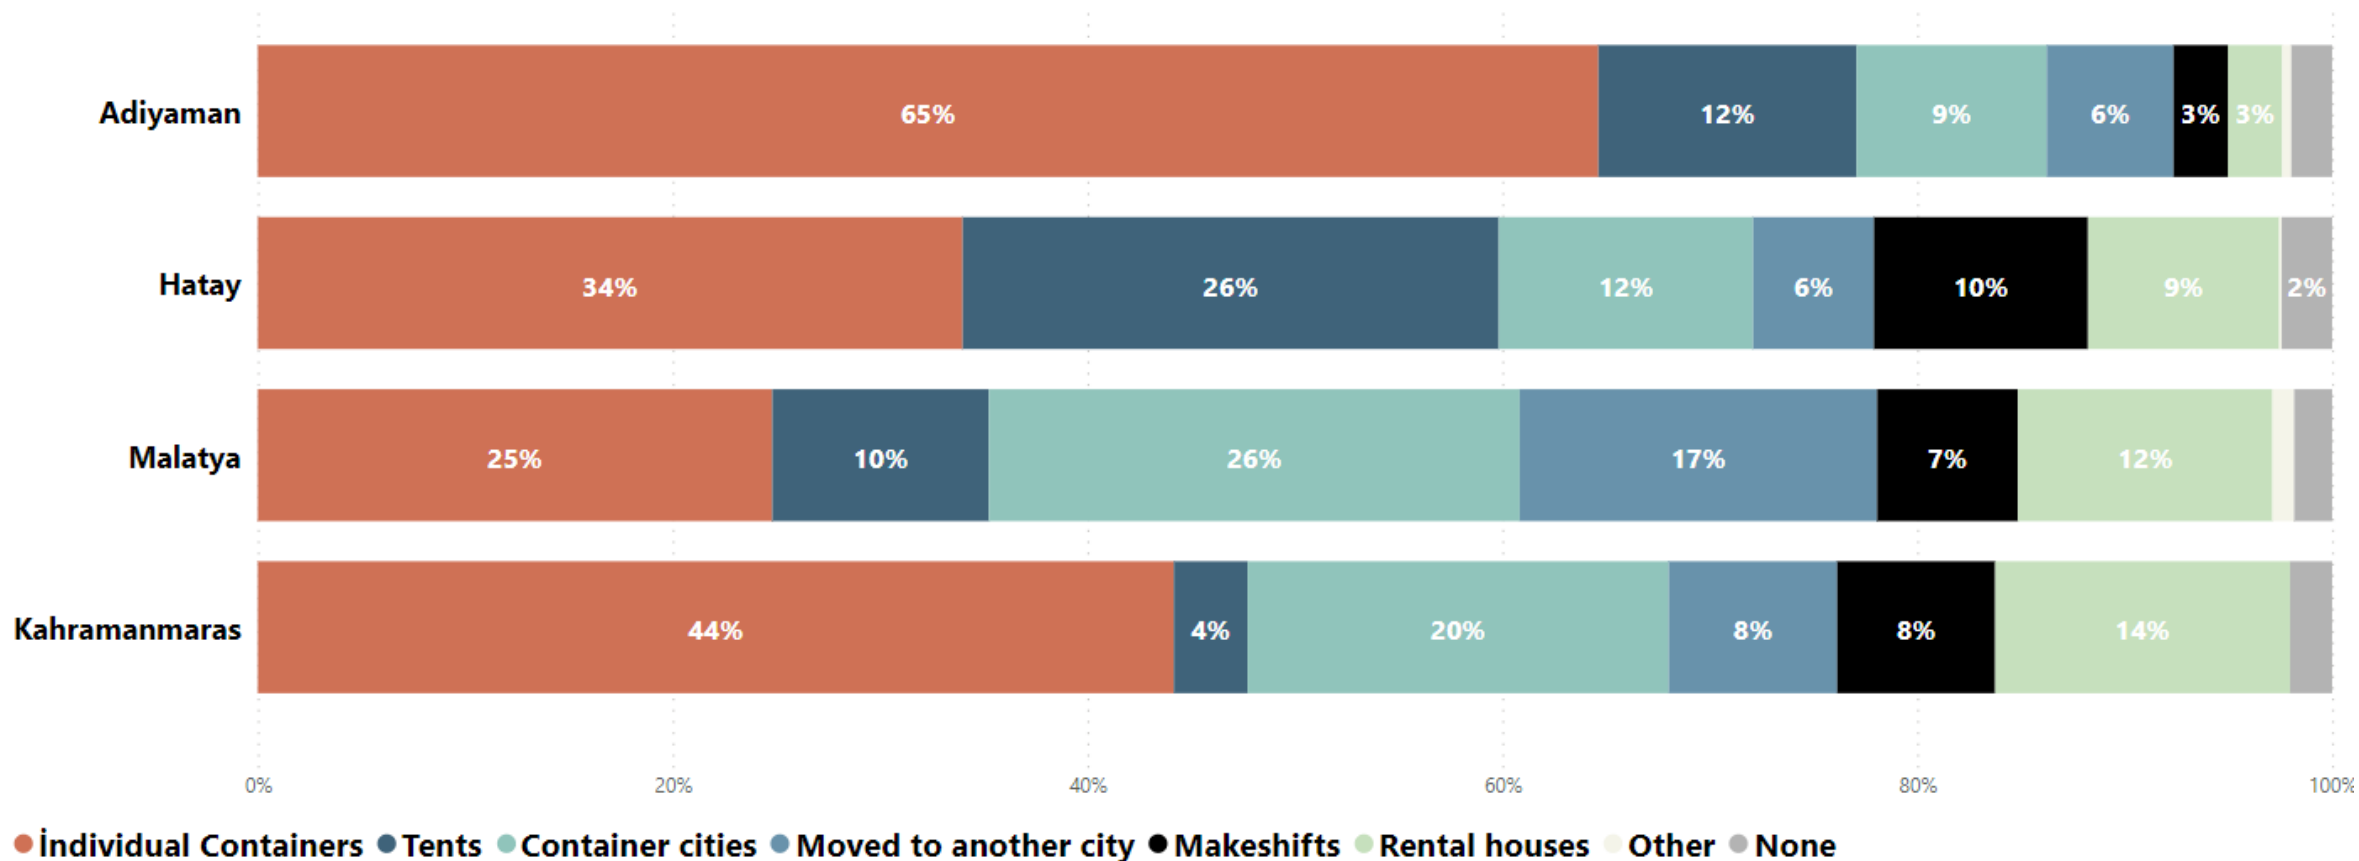

Malatya

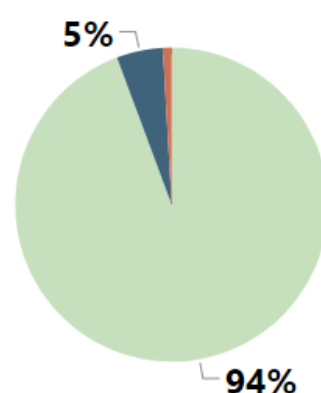

Kahramanmaraş

Neighborhood Profiling – Affected people meet their shelter needs

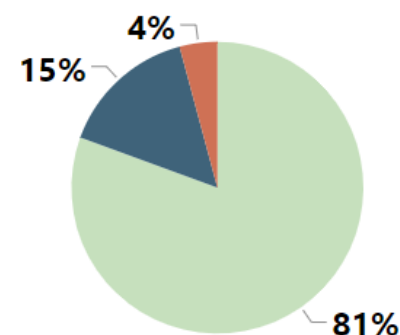

Neighborhood Profiling – Were the people in this neighborhood living in this neighborhood before EQ?

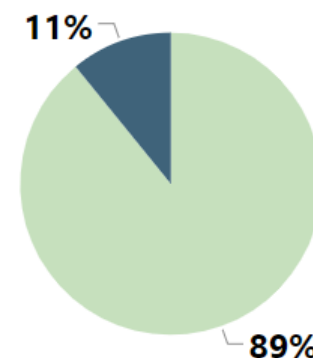

- a. Most or all
- b. Only Some
- c. None

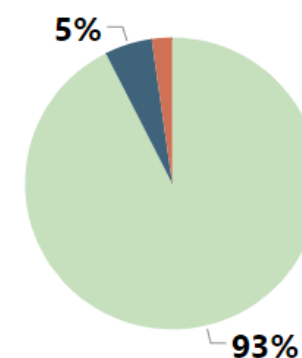

Adiyaman

Hatay

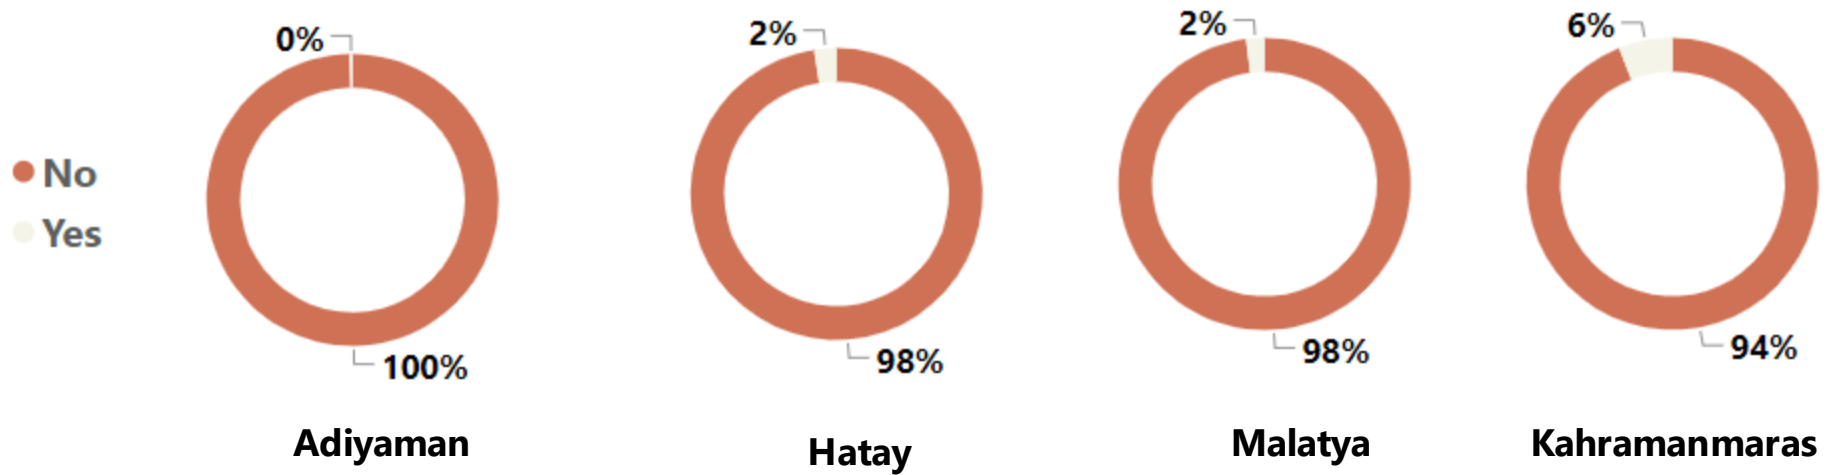

Malatya

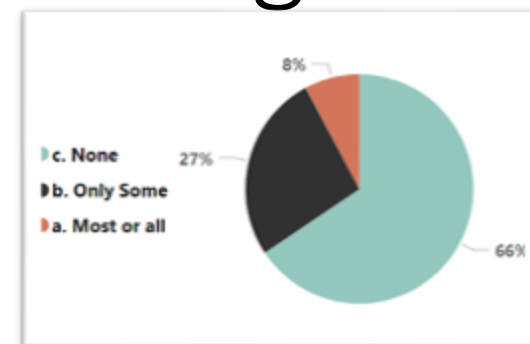

Kahramanmaraş

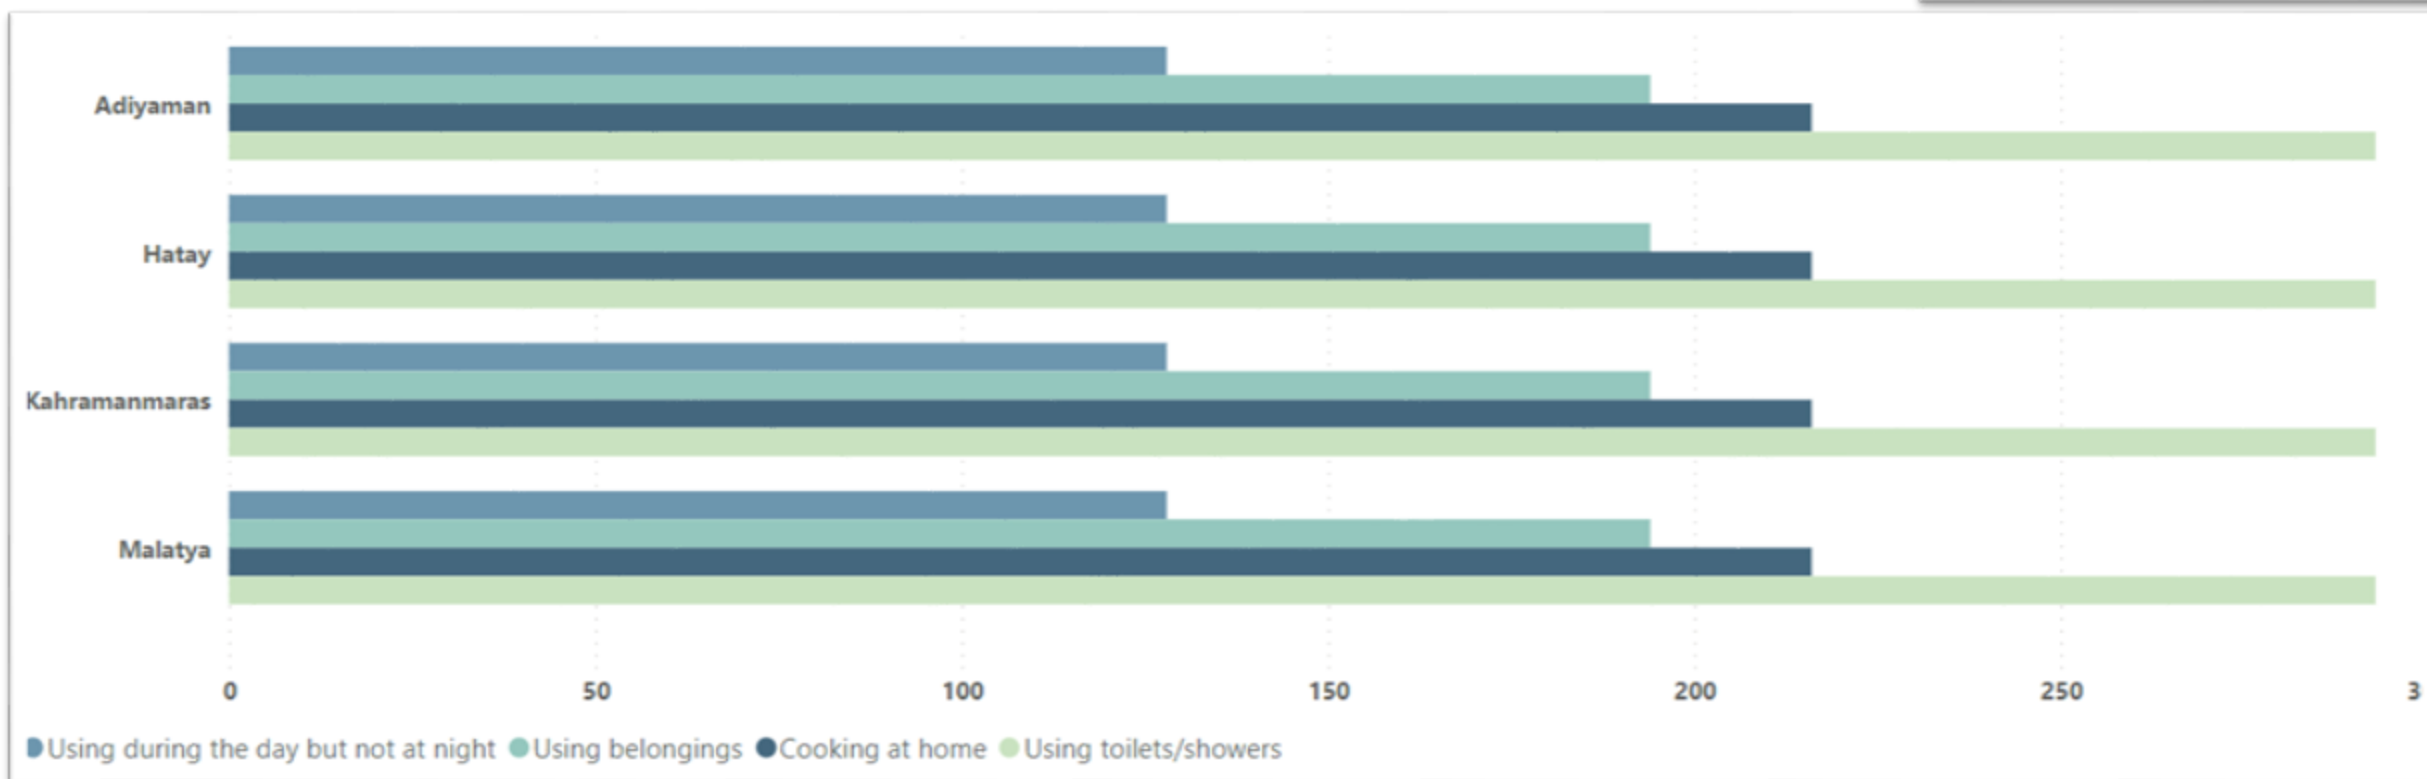

Neighborhood Profiling – Is any organization providing cash support services for the residents in this neighborhood (excluding government support)?

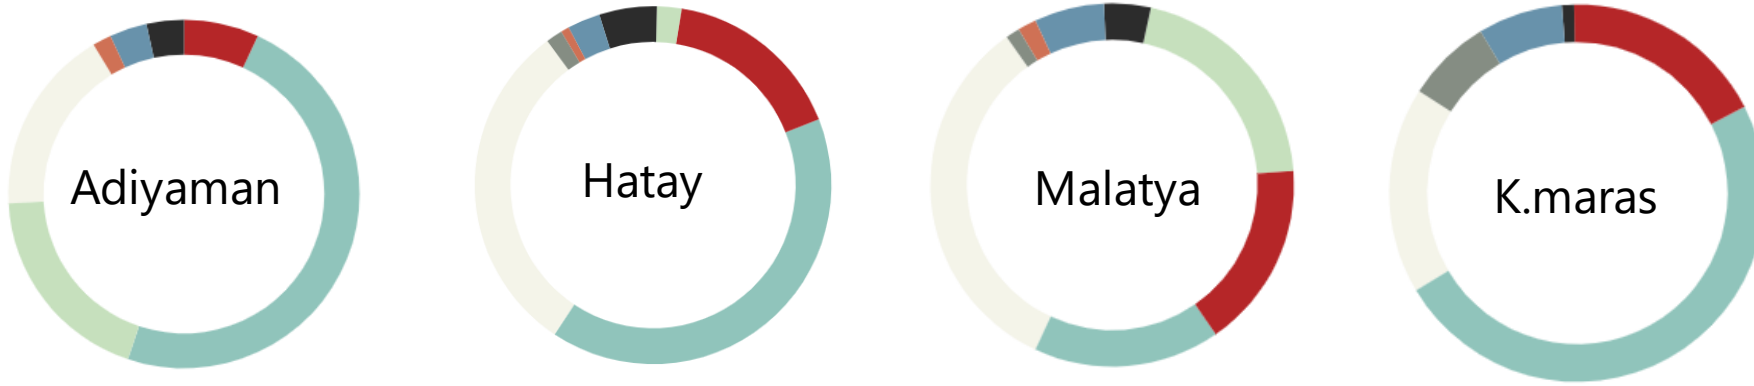

Neighborhood Profiling - People using heavily damaged houses

Main purposes of using heavily damaged houses

Neighborhood Profiling- Communal areas

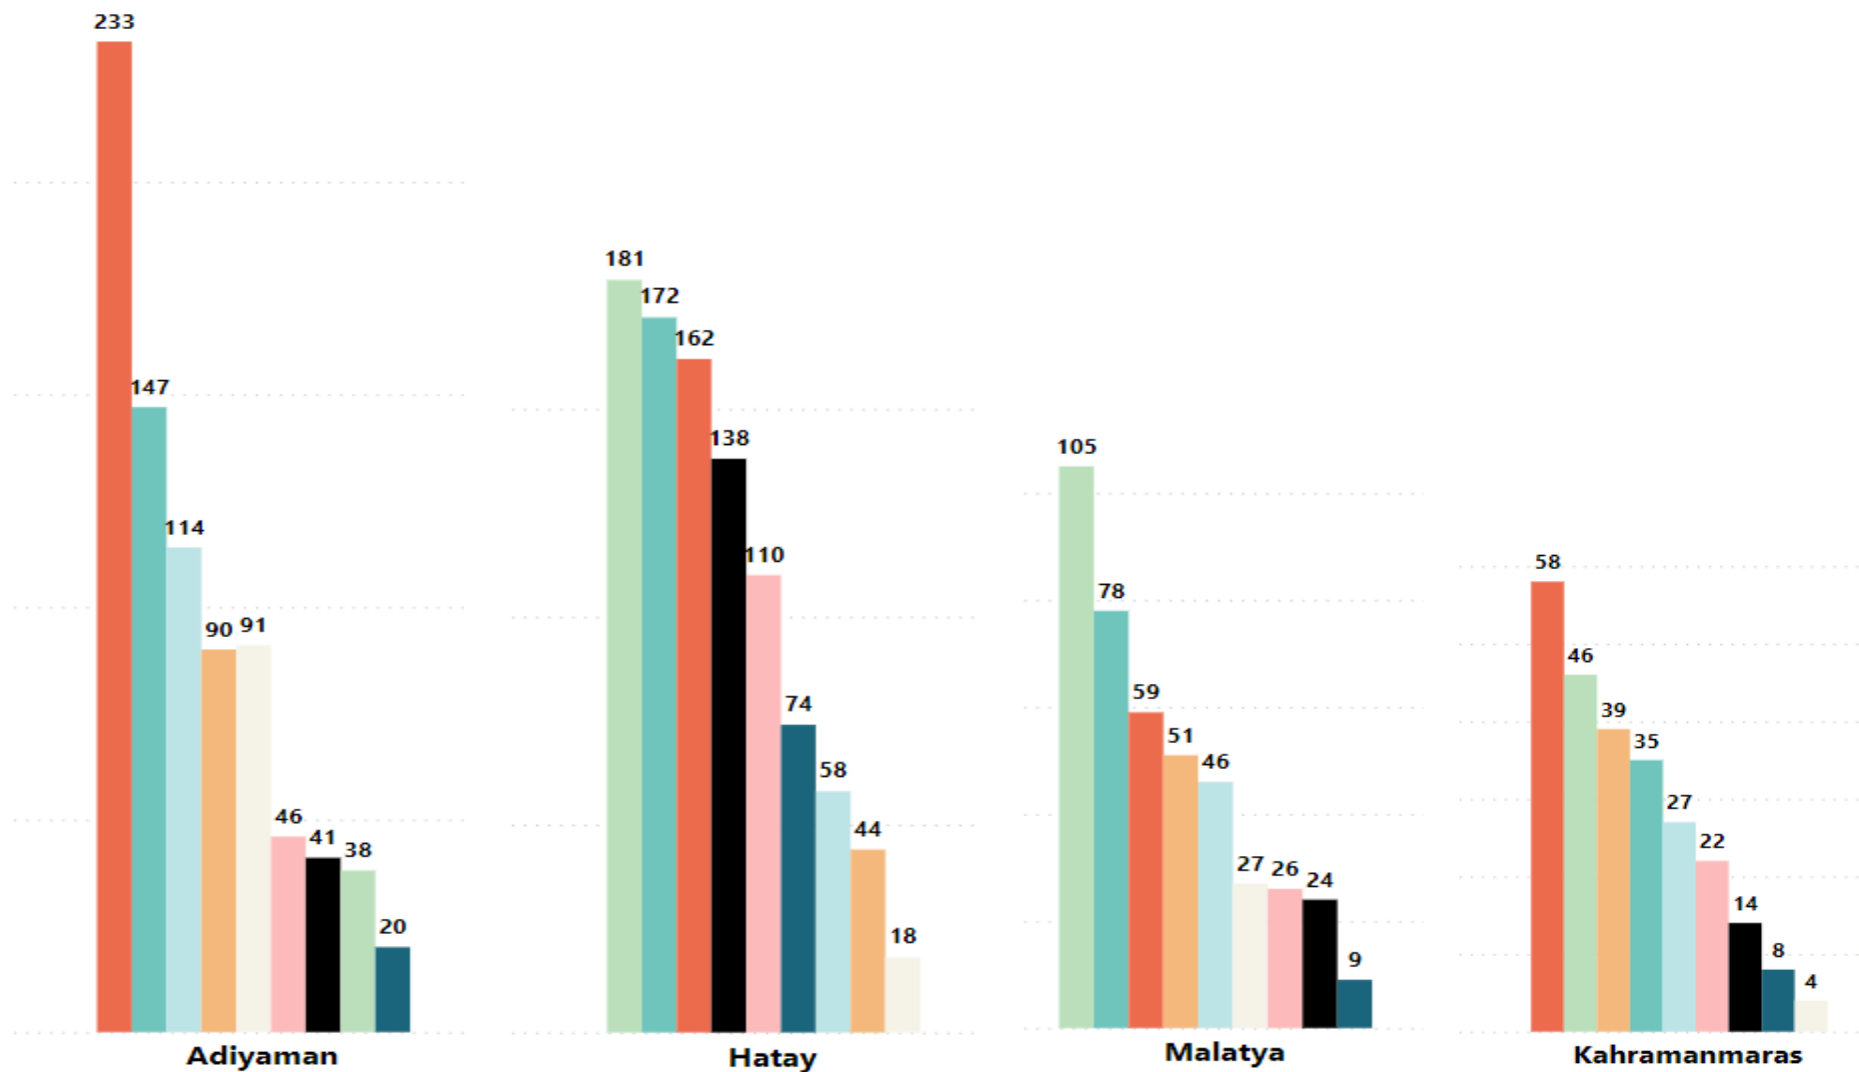

● Free Nurseries ● Libraries ● Women friendly space ● Men friendly space ● Sport areas ● Communal hall ● Child friendly space ● Day care centers for elderly

MHPSS service centers

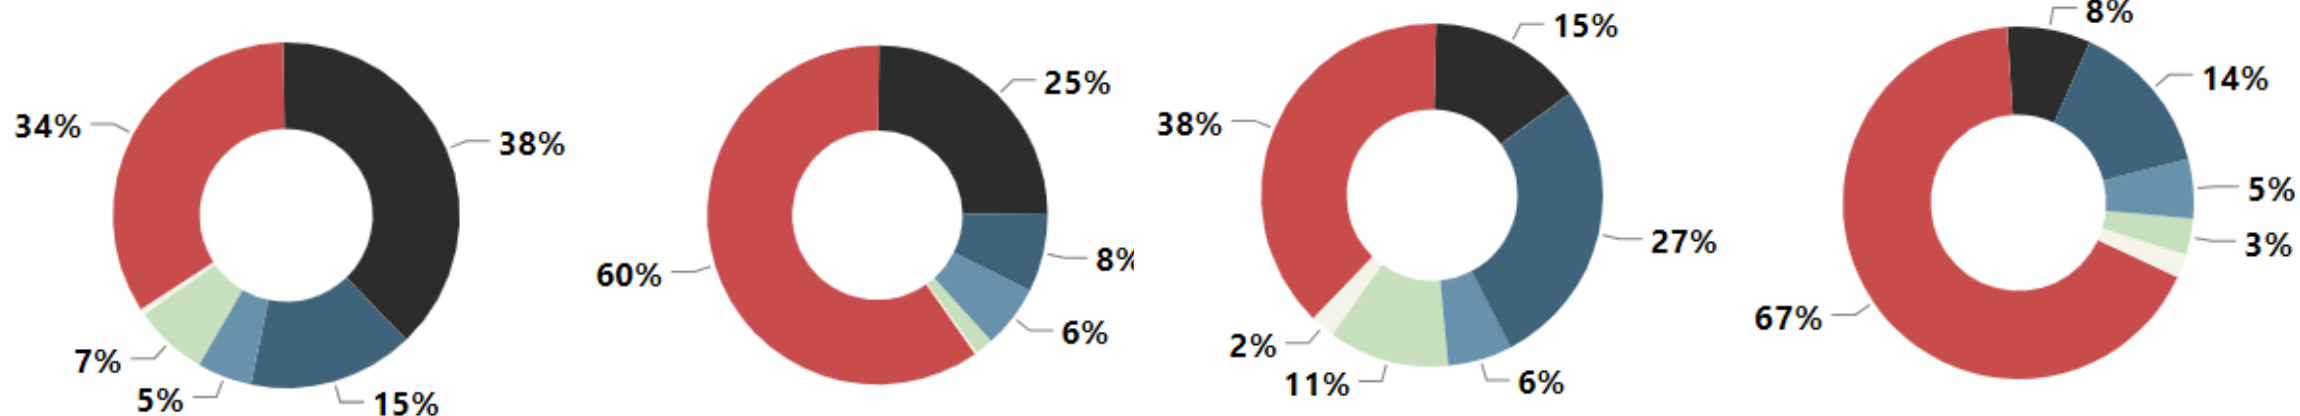

Mobile/online well-being PSS activities

Neighborhood Profiling - Non-functional facilities/services in the province

- Medical facility
- High school
- Secondary school
- Primary school
- Market to buy basic items/food
- Public transportation
- Electric infrastructure
- Telecommunication infrastructure
- Water infrastructure

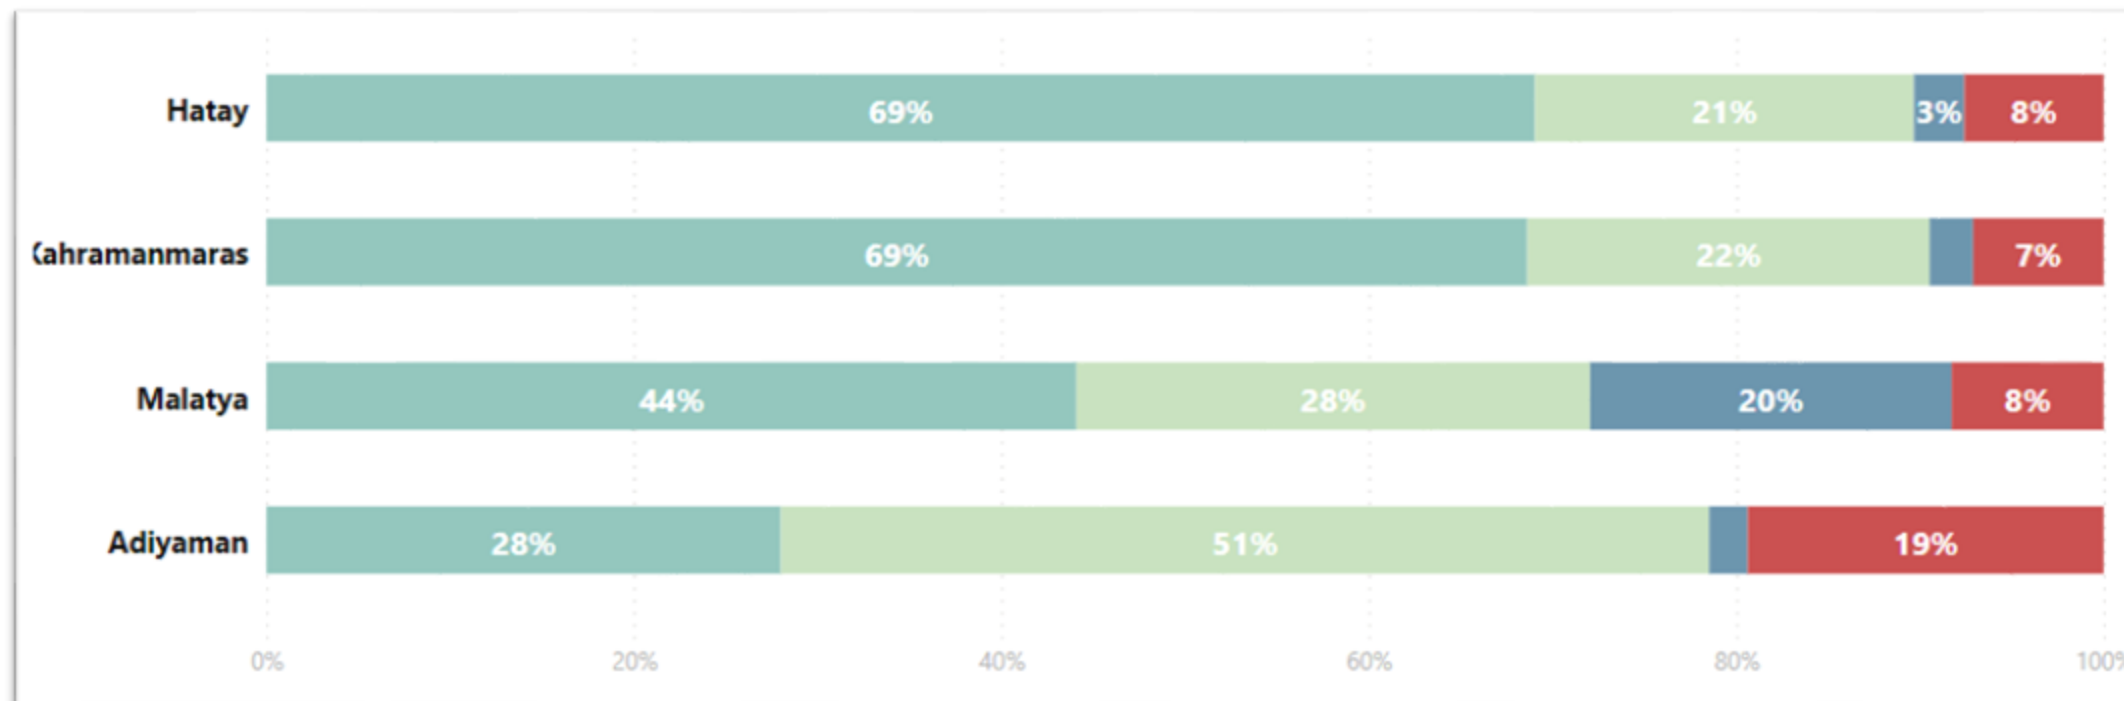

Conditions lead to fire risks

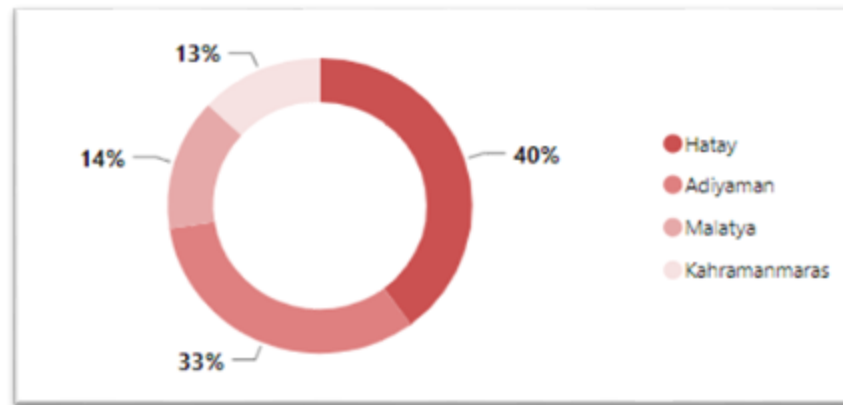

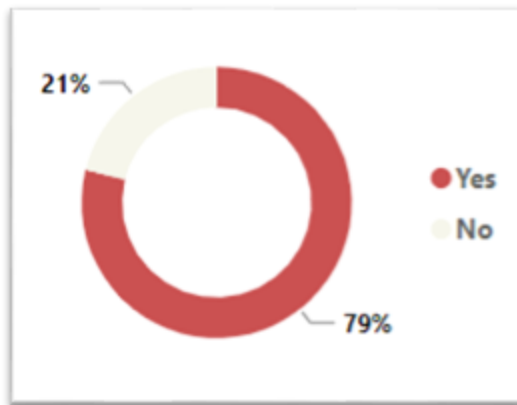

- Materials of the shelters wood, PVC, tent
- Dangerous electric connection
- Narrow/hilly streets lack of fire trucker access
- Lack of adequate space between shelters
- Garbage rubble piles close to residential areas
- Nearby big industries

Neighborhood Profiling – Fire Extinguishing Mechanisms

● Fire trucker ● Nearby water resources ● Fire fountain ● Fire Extinguishers

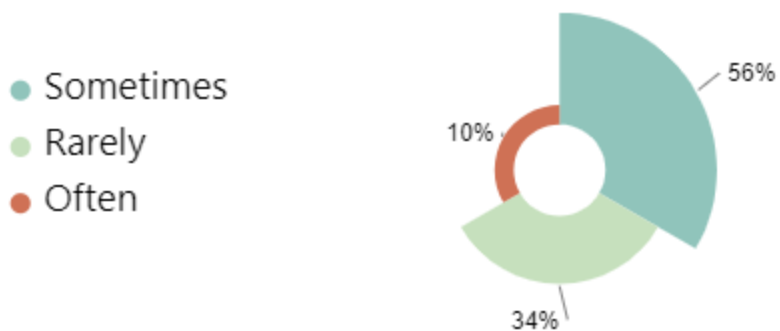

Neighborhood Profiling - Power/electric cut

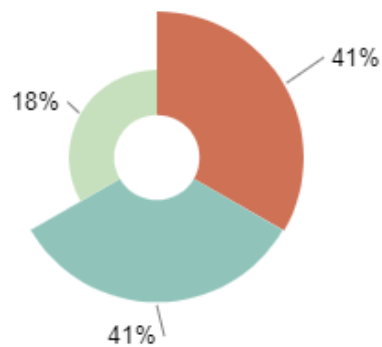

How often electricity is cut

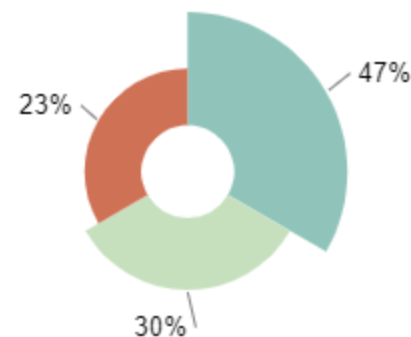

Adiyaman

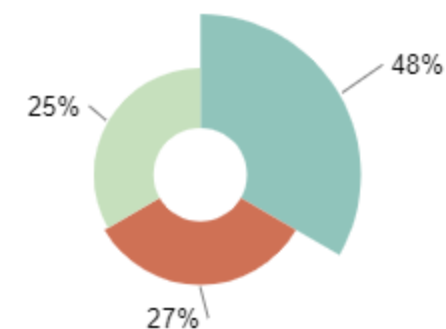

Hatay

Malatya

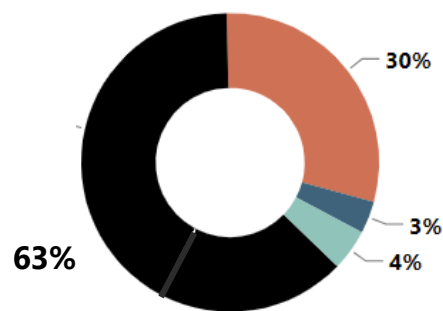

Kahramanmaraş

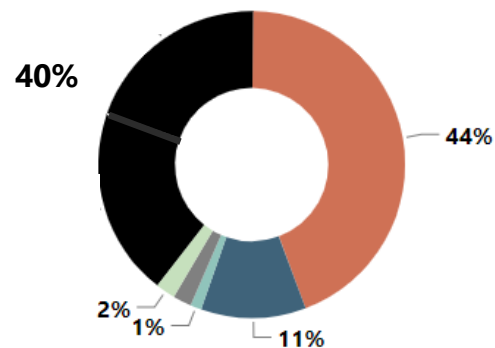

Neighborhood Profiling – Heating and/or Cooling Equipment

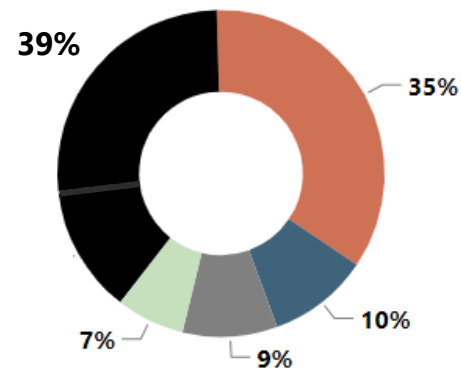

● Electric Stoves \ heater ● Wood Stoves ● Air Conditioner ● Air ventilators/coolers ● Gas stoves ● Electric radiator panels

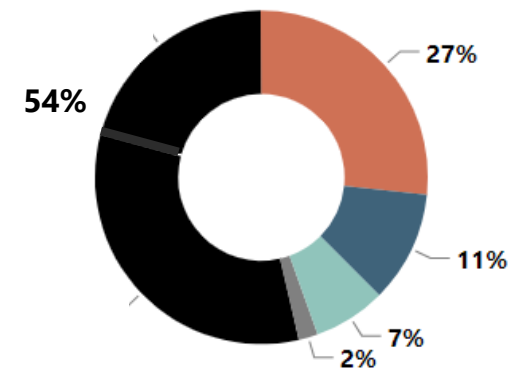

Adiyaman

Hatay

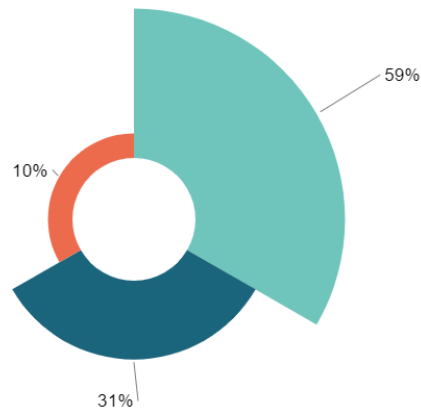

Malatya

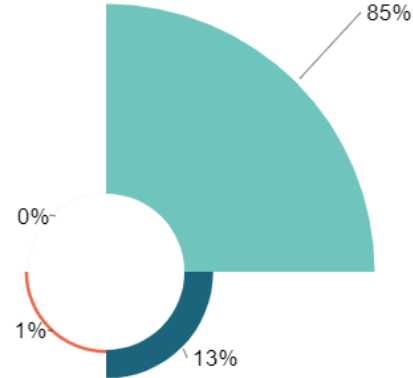

Kahramanmaras

Neighborhood Profiling – Cooking equipment and modalities

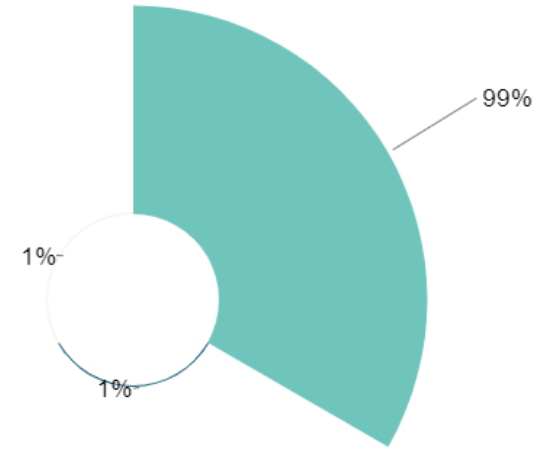

- Cooking Gas
- Electric stove
- firewood
- Others,

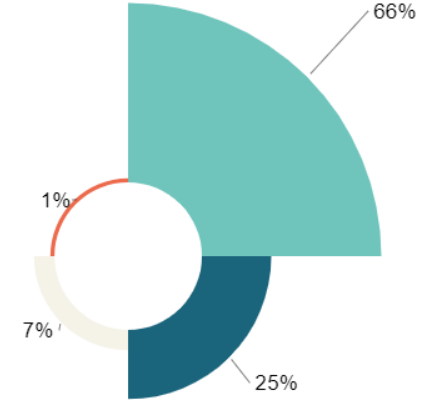

Adiyaman

Hatay

Sanitation & Hygiene	84	49	38	10	181
Clean Water	70	31	11	4	116
Food	34	54	8	16	112
Education Support	40	39	10	5	94
Waste Management/pollution/rubble removal	69	6	13	1	89
Public transportation	44	11	21	11	87
Water infrastructure	54	16	9	6	85
Mental health and psycho-social support	21	6	17	1	45
Specialized Services for persons with special needs	27	10	2	2	41
Total	1140	577	411	161	2289

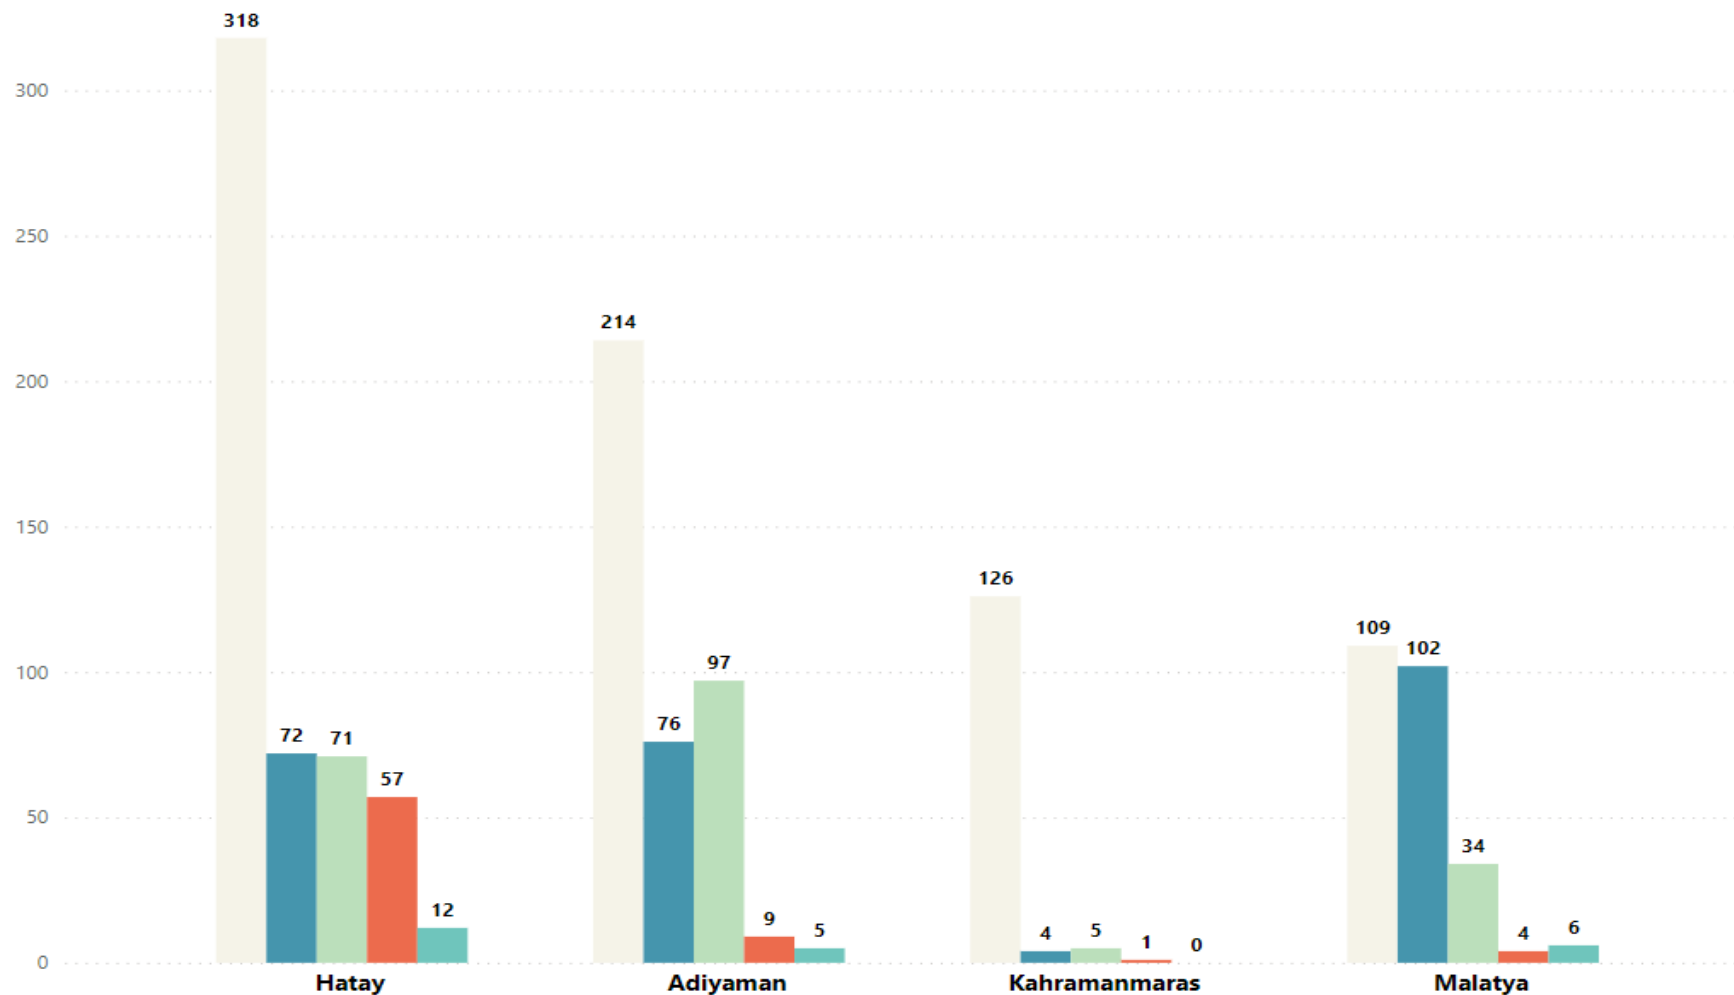

Neighborhood Profiling - Top needs per province

- Shelter & Housing
- Electric infrastructure
- Healthcare Services
- Telecommunication infrastructure
- Sanitation & Hygiene
- Non food items
- Public transportation
- Food
- Education Support

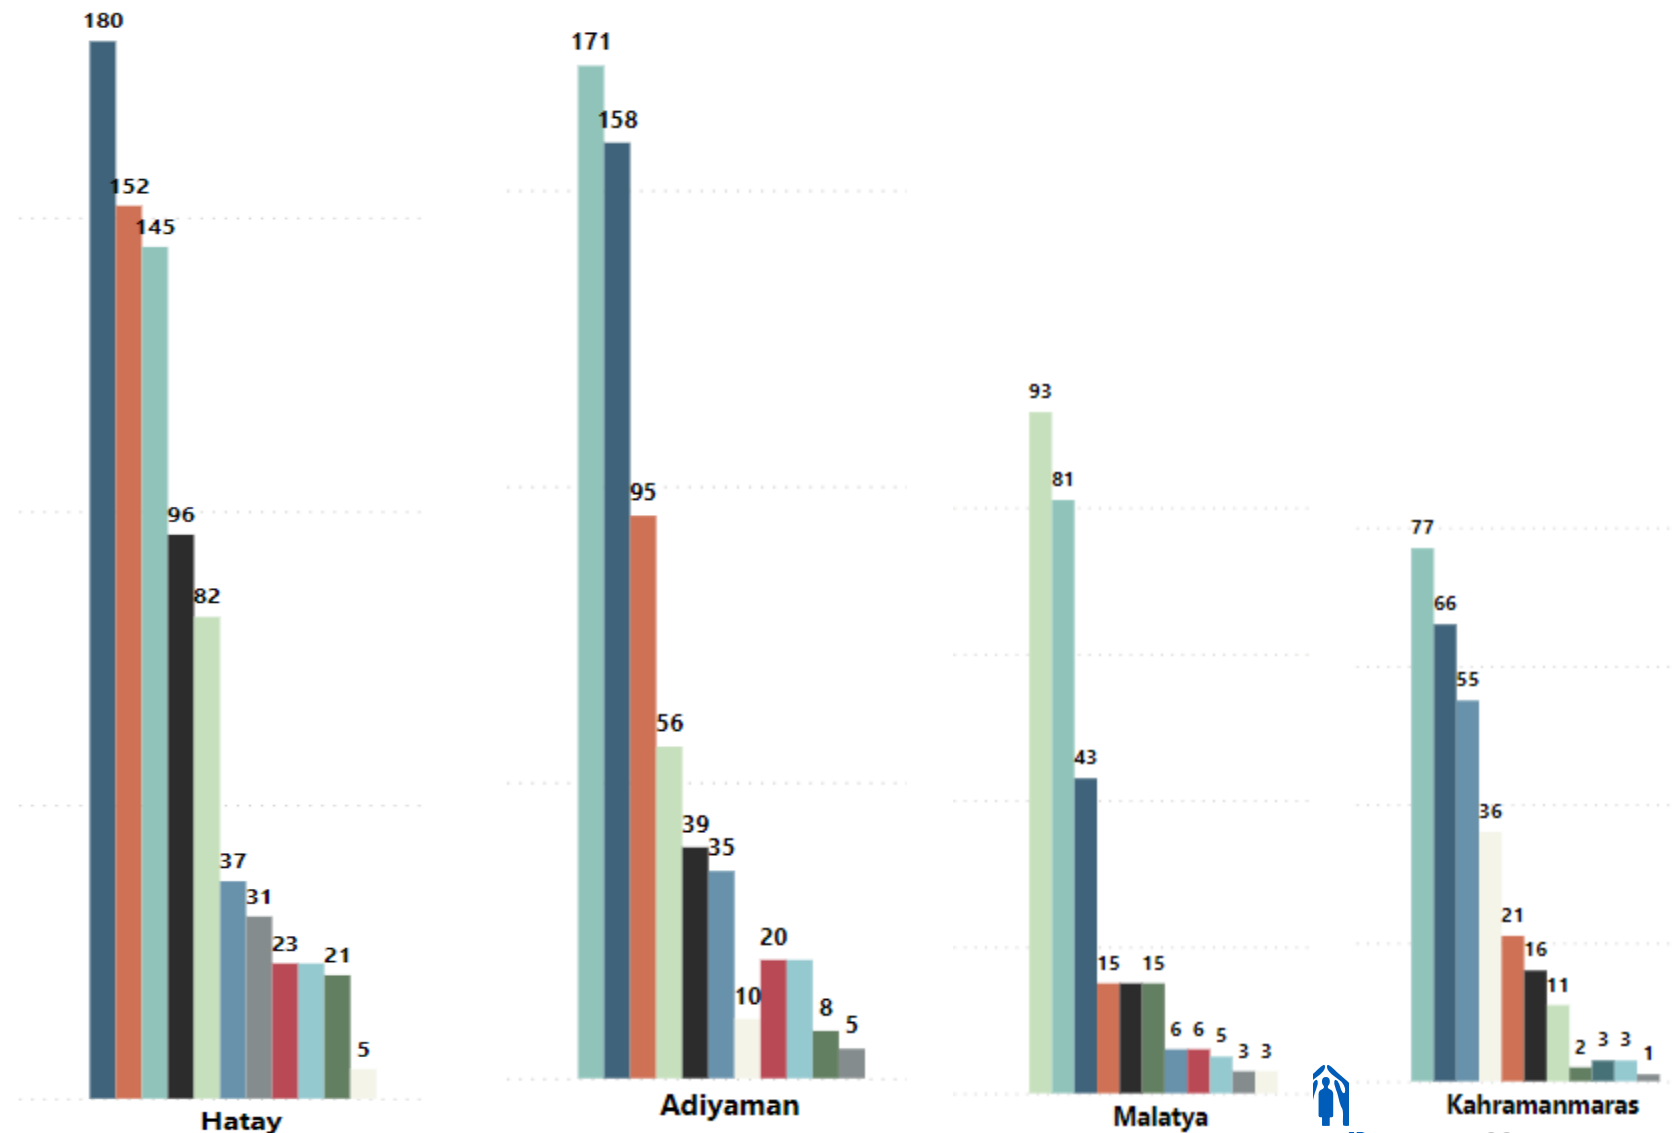

Neighborhood Profiling - Intention of the Residents in temporary settlements

- Most residents plan to rebuild and stay in this neighborhood
- They are waiting for their application results for government support services/projects
- Uncertain about their future plans/exploring different options and inquiring about available services and assistance.
- Some of the population is seeking employment opportunities to improve their livelihoods.
- Waiting to be admitted to container sites

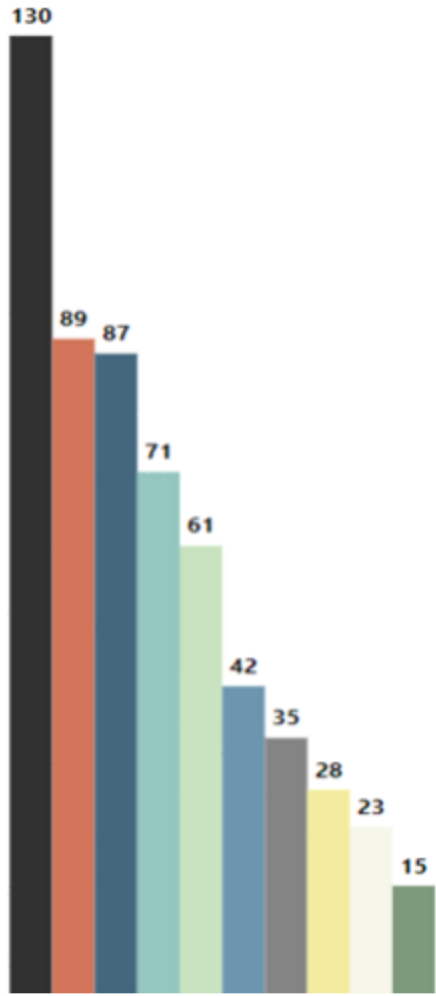

Neighborhood Profiling – Difficulties in obtaining information

- The future of our accommodation
- How to access basic assistance and services
- Financial assistance
- Sustainable solutions apart from temporary se...
- Employment opportunities
- How to make a complaint or share feedback
- How to apply for container cities
- Education related information
- Support for individuals with vulnerabilities an...
- Public transportation schedule
- Expropriated lands/further plans if they will co...

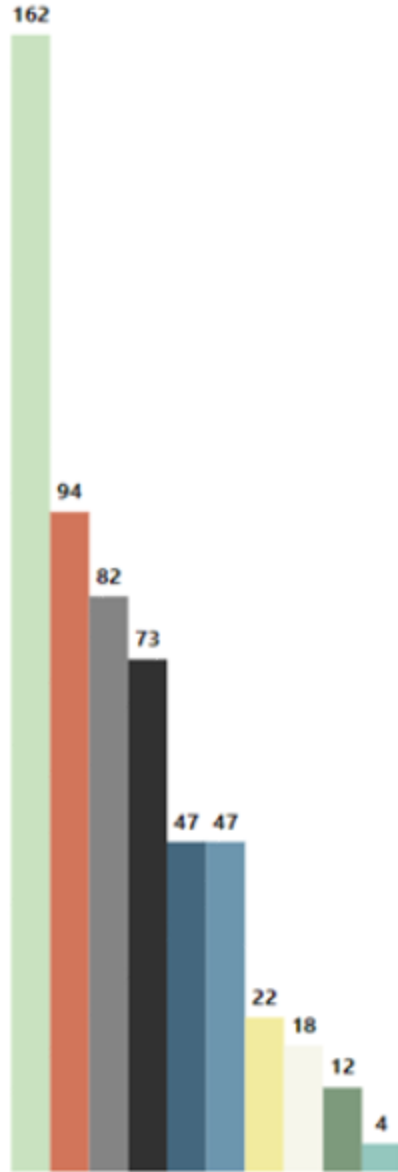

Hazards

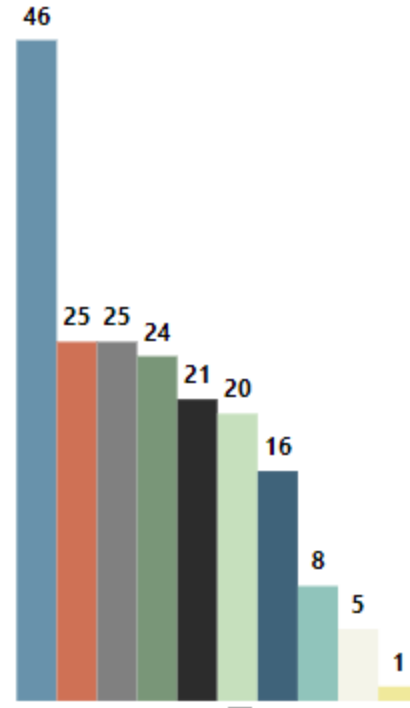

- Pollution
- Fire hazards
- Dangerous electrical wiring
- Open sewage pits
- Heavy weather conditions
- Lack of lighting
- Hard to reach in harsh weather conditions
- Landslides
- Flooding
- Proximity to traffic

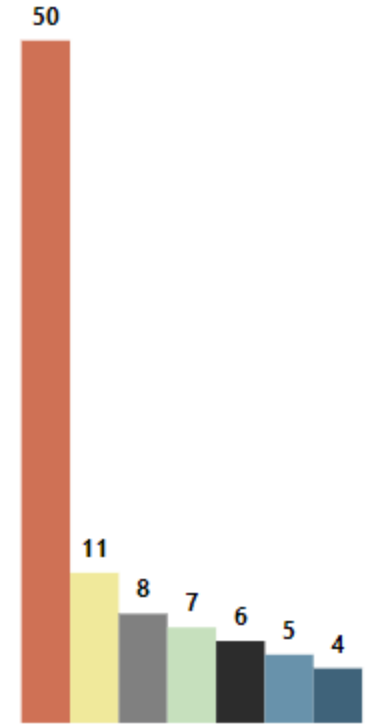

Hatay

Malatya

Kahramanmaraş

Neighborhood Profiling

Is there communal lighting/street lights in the neighborhood in the communal areas

Conclusion – Questions & Answers

- Neighborhood profiling fundamental baseline- ABC approach- scattered settlements
- Close intersectoral collaboration
- Contextualize interventions through community participation- and government collaboration
- Any questions/thoughts?

WINTERIZATION COORDINATION

Winterization Coordination

- Sixth winterization coordination meeting will be held on 30th Jan.
- Winterization Coordination meetings will also be started on hub level.
- Winterization assistance approaches
 1. Formal site-level coverage in response to government requests
 2. Planned assistance to clusters in neighbourhoods
 3. Complemented by neighbourhood approach to address emerging referrals
- **Have you added your winterization activities to the planned activities – ActivityInfo Tool?** Contact: Tezcan@unhcr.org

Winterization Coordination

- Lack of coordination with Shelter sector in general, which may result in overlapping and duplication, and inefficiency in the response.
- Before distributing heaters, it is important to ensure that the electrical infrastructure of the settlements and the containers is adequate. Thus, coordination with the site management and/or local authorities is mandatory.
- Ensure timely reporting to the existing needs and providing information about the covered needs is very important for coordination..

Next winterization coordination meeting to be held on Tuesday, 30 January– invitation will be shared by email.

Agenda:

Overview of needs at hub level, corresponding to partners winterization plans to identify more accurately the capacity and gaps and addressing referrals.

Sharing an update on technical resources for winterization

Hearing how Sector can better support you

HUB COORDINATION UPDATES

58 Container cities – 24,709 Container - 69,142 Individ.

Rural: 44,412 containers - 11,919 Foldable containers

Total Individuals in containers: 116,554 – 20,682 HH

General Updates:

- AFAD covered foldable containers in rural areas with Tarps – Shelter Sector conducted a field visit to 3 locations in Golbasi (from referrals) and found out that tarps needs are covered.
- Neighborhood-based intervention is planned. Agencies and organizations willing to work in disadvantaged neighborhoods can contact PDMM for cooperation.
- A new site (42 Containers) will be dedicated to people with disabilities. Currently, few families are residing there, authorities are welcoming agencies to work on improving access in the site for more information contact the ABC hub coordinator.
- 1500 tarps are needed at Adiyaman City Center formal sites.

55 container cities - 22,440 Containers - 69,031 indiv. - TAC hosting 14,000 TP. (as of October)

15,400 containers in rural areas - 13,150 foldable containers (as of October)

General Updates:

- First joint meeting between Shelter sector and Kahramanmaras ABC partners. Referrals, priorities, and challenges were shared and discussed. The modality of the meeting is to be maintained.

Needs by Gov:

5,000 (8x4) Tarpaulins needed in (Afsin, Goksun, Elbistan)

Oil heaters needed in (Afsin, Goksun, Elbistan) (numbers to be acquired)

13,150 foldable containers in need of upgrading.

210 Container cities – 51,293 Containers - >220,000 indiv. (As of 23th Nov)

10 Container Sites are under construction

1 Tented site – 140 Tents (RHU)

13,159 Containers in rural areas – 37,892 Indiv. (As of 23th Nov)

General Updates:

- Applications for light repairs for moderate damage structures ended on 5 January. Applicants will submit their documents till April. Repairs will start as of April 2024.
- Informal tented sites based at Narlica will be transferred to Hilalkent in two weeks.
- 2 fire incidents took place in Hatay (Antakya and Samandag last week.

Needs:

- 7,000 (8x4m) Tarpaulins for AFAD containers protection from rain.
- Oil Heater (increased)
- Fire extinguishers: urgently needed by local authorities
- Plastic pallets for 140 RHU tents in Samandag.
- School + Library needed (CARE will engage with the need).

74 Container cities (52 in city center – 22 in rural areas) – 28,834 containers – 32,203 HH - 116,822 indiv.

Around 7,000 (3878 of which are foldable) containers in rural areas – 26,788 individuals

- A fire occurred in Beydağı BGM on 01.01.2024
- AFAD will provide SGI sheet roofing to all containers based at Ronesans – 3 site.
- Malet-2 site: Management is providing electrical distribution panels with circuit breakers
- AFAD: Capacity of the electrical panels in the container cities is sufficient for heaters.
- Fire safety messaging will be disseminated via SMS by local authorities.
- Tarpaulins implementation in rural areas to be delivered to the district governorship to which the area is affiliated.
- AFAD provided 1700 tarps in rural areas and a total of 1000 tarps applied on containers
- Affected people living in rural areas are moving to rented houses due to weather conditions.

General Updates:

- Shelter Sector Coordination Team visited Nurdagi Aslanli – 3 Container Site on 17 January 2024.
 - 352 Foldable containers. All covered with tarps.
 - OXFAM and IBC provided NFIs for living space improvement.
 - WASH facilities are needed. The available WASH facilities were reported as out of use. Intersectoral communication is underway.
 - NFIs are needed at far villages such as Keferdiz, Sakcagozu at Islahiye city.
 - Drainage work + grounding is needed at the site.
- Shelter Sector Coordination Team visited Islahiye – 3 Container Site on 17 January 2024.
 - 339 foldable containers. All covered with tarps.
 - WASH facilities are needed. The available WASH facilities were reported as out of use (due to congestion).
 - Intersectoral communication is underway.

STRATEGIC ADVISORY GROUP (SAG)

SAG

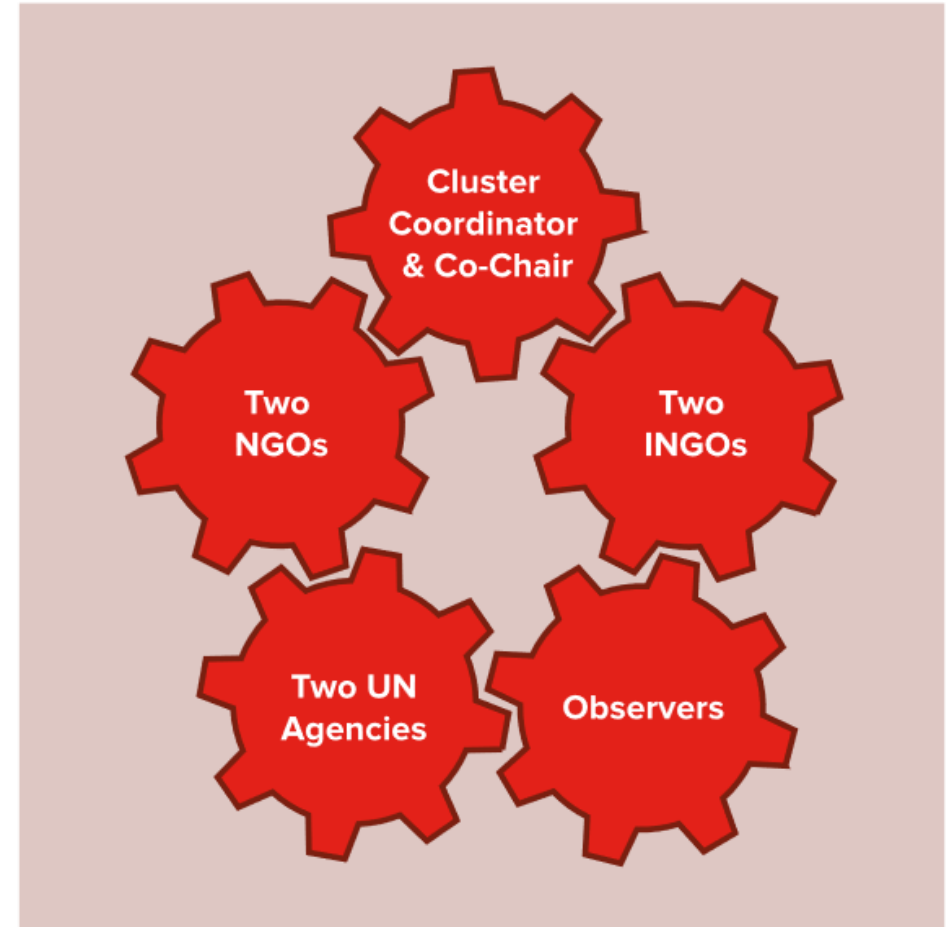

Overview:

- Advisory board within Shelter and NFI Sector
- Guides strategic direction and offers guidance to sector members
- Compact and Efficient:
 - Balances agility with effective decision-making
 - Ensures swift responses without compromising participation
- Thoughtful Composition:
 - Limited participants but includes representation from key stakeholder groups
 - Designed for inclusivity and diversity within sector membership
- Forum for Decision-Making:
 - Provides a platform for regular, collective, and agile decision-making
 - Maintains participatory, transparent, and accountable governance in the sector

SAG Structure

The SAG is led by the Sector Coordinator and Co-Chair by default, while the below key actors, representative of sector's wider membership, are elected through a transparent process:

- 2 UN Agencies
- 2 International NGOs
- 2 National NGOs

SAG Roles and Responsibilities

Strategic Direction & Guidance

HPC Support

Advocacy & Resource Mobilisation

Resource Allocation

Coordination & Collaboration

Monitoring & Evaluation

Why SAG?

Shelter and NFI Coordination structures and systems exist at the Gaziantep and Hub levels to promote a consistent but decentralised level of coordination and allow for a timely and effective provision of assistance, including preparedness and immediate responses. However, as indicated above, the local authority in many places has not recognized such coordination bodies in terms of decision-making processes, resting much of the impact on the coordination platform.

TECHNICAL COORDINATION – TWG UPDATES

Technical Coordination I Shelter TWG Updates

Previous TWiGs

Last week

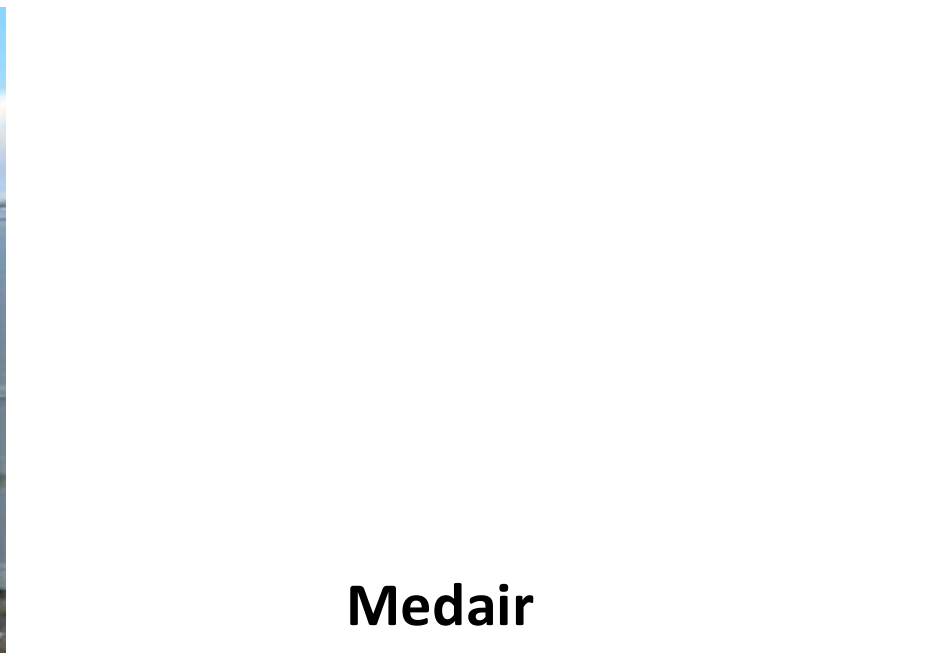

- Presentation on pilots from partners
 - IOM – Curved tarp roof over containers
 - STL – Gabled CGI roof over containers
 - Medair – Transitional wood shelters
