
5W – DATA OF LAST DECEMBER

Philippines Shelter Cluster

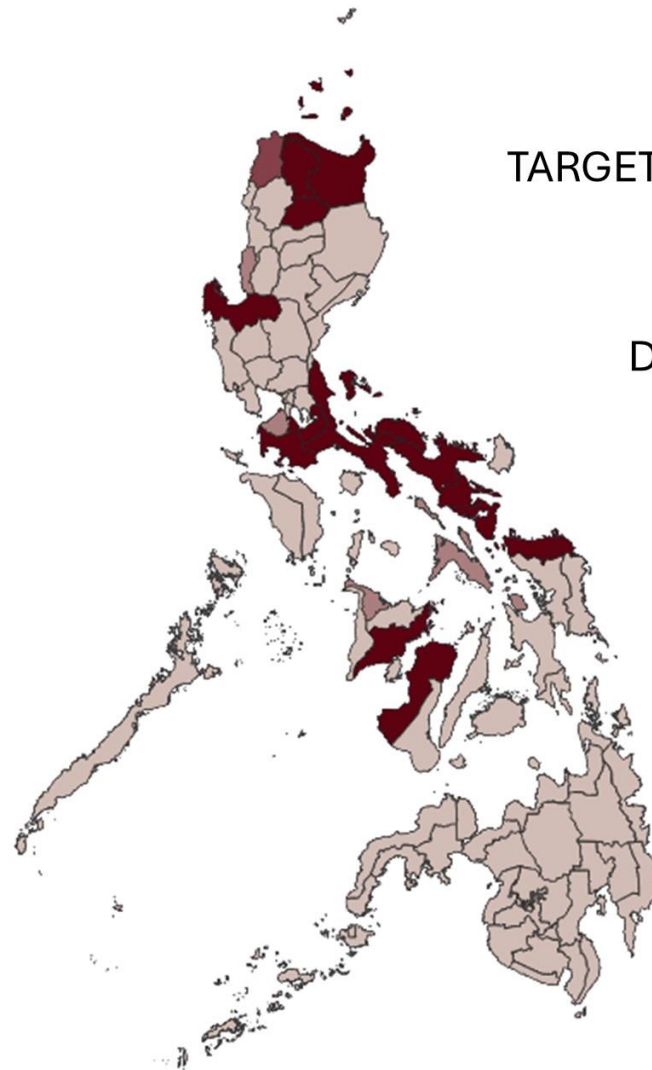

The Shelter Cluster aimed to improve on the data collection, so that it reflects operation effectively. Therefore, a revision of the 5W was suggested in December 2024.

1. The first version of the revised 5W was presented at December 13. Therefore,
2. Inputs were collected by December 19.
3. Today:
 1. Insights in 5W data.
 2. Retrieve feedback on revised 5W.

ABOUT

CARE has been providing emergency relief and development assistance in the Philippines since 1949. Over the years, the organization has developed strong working relations with local communities and local non-government organizations throughout the country.

EMERGENCY RESPONSE

CARE Philippines responds to major and minor emergencies within the country which includes typhoons, earthquakes, volcanic eruptions, and displacements. For our responses, CARE works closely with our partners on the ground to develop a comprehensive risk assessment to know the specific needs of the affected population.

TYPHOON & FLOOD RESPONSE 2024

CARE collaborates with ACCORD on the Shelter activities in the Typhoon & Flood Response 2024.

An elderly woman with grey hair, wearing a blue dress with a red floral pattern, is crouching and working on a wall. The wall is constructed from vertical bamboo poles with mud plastered between them. She is using a wooden board to spread the mud. The text "THANK YOU" is overlaid in the center in a large, bold, red font.

THANK YOU
