COORDINATION

- 2023 HRP Review:** An annex to the 2023 HRP was drafted by the ISG requesting USD 500 M to implement Post Earthquake Emergency Relief activities. For Syria hub, USD 2.6 M was requested to reach more than 51 K individuals with post emergency NFI needs.
- Country Based Pool Fund:** SHF 2nd Reserve Allocation was announced on March 29th aimed at responding to the critical humanitarian needs stemming from the earthquake. 2 projects were submitted under NFI sector, both the projects were recommended for allocation by the committee. After the recommendation an INGO withdrew, resulting in a UN Agency being allocated USD 0.5 M

RESPONSE

- Earthquake Response:** as of end of June 2023 the NFI sector partners were able to assist 281 K individuals with lifesaving and life sustaining NFIs to the most vulnerable people affected by the earthquake in Aleppo, Lattakia, Hama, Homs, Idleb, and Tartous governorates.
 For more details, please see the 21 SYRIA HCT flash update as of 11 May [Here](#)
 The latest update on Shelter and NFI response to the earthquake emergency with details on the kind of emergency NFIs provided by partners is available in the form of a dashboard on Global Shelter Cluster website [Here](#)
- Core NFI Response:** In the 2nd quarter, sector partners reached over 52 K vulnerable people with Core NFI assistance across 12 Governorates, with Lattakia & Aleppo being the areas with highest coverage. The total funding requirement for NFI assistance in 2023 stands at USD 196 M.
- Winter NFI Response:** Partners provided winterization assistance to 0.5M individuals from April to June with essential winter items via 'gift-in-kind' and cash-based modalities.
 The sector has initiated planning for winter season 2023-24 and like last year the resources are expected to be extremely limited compared to the critical needs. Efforts are being made to ensure the lessons learned from previous response are integrated and the pre-winter reach concept mainstreamed in this year's response, as the timely response and the delivery of the most needed items during the harsh winter weather.

GAPS / CHALLENGES

- The inflation rate continues to pose challenges to partners particularly in procuring items.
- Access and safety continue to be challenges in some parts of the country as well as partner capacity and funding.
