GLOBAL
SHELTER CLUSTER

Coordinating Humanitarian Shelter and Settlements

Shelter Severity Classification

A quick refresher

Background

- Recognized need to improve and standardize the way in which the severity of shelter needs are measured across shelter responses
- To improve evidence-based decision making, advocacy, and funding prioritization for the sector through a comprehensive understanding of the shelter situation in a particular humanitarian context
- Launched in May 2023
- Implemented in 14 countries

Objectives

SSC Analytical Framework

Severity Phases - HH Level

| PHASE 1 | PHASE 2 | PHASE 3 | PHASE 4 | PHASE 5 |
|---|---|---|---|--|
| NONE / MINIMAL | STRESSED | CRISIS | CRITICAL | CATASTROPHIC |
| HOUSEHOLD LEVEL: Household lives in adequate dwellings*, can perform all typical, core domestic functions, and has adequate access to all community-level services and infrastructure | HOUSEHOLD LEVEL: Household lives in adequate dwellings* (with minor issues), can perform most typical, core domestic functions, and has adequate access to most community-level services and infrastructure | HOUSEHOLD LEVEL: Household lives in inadequate dwellings* (with significant issues), is unable to perform many typical, core domestic functions, and has limited adequate access to community-level services and infrastructure | HOUSEHOLD LEVEL: Household lives in inadequate dwellings* (with severe issues), is unable to perform most typical, core domestic functions, and has very limited adequate access to community-level services and infrastructure | HOUSEHOLD LEVEL: Household has no or is living in severely damaged dwelling*, is unable to perform all typical, core domestic function, and has no access to community-level services and infrastructure |

Severity Phases - Area Level

AREA-LEVEL:
At least 80% of households are living in shelter conditions described above

AREA-LEVEL:
Up to 20% of households are living in shelter conditions described in phases 2+3+4+5 (less than 20% are in conditions described in phases 3+4+5)

AREA-LEVEL:
At least 20% of households are living in shelter conditions described in phases 3+4+5 (less than 20% are in conditions described in phase 4+5)

AREA-LEVEL:
At least 20% of households are living in shelter conditions described in phases 4+5 (less than 20% are in condition described in phase 5)

AREA-LEVEL:
At least 20% of households are living in shelter conditions described above

Three Pillars

OVERALL INDICATOR: Households live with dignity and security of tenure in adequate* dwellings, with access to community-level services and infrastructure.

*Adequate dwelling: safe and secure structure that protects against external threats, health problems, thermal discomfort, natural elements.

**Note: as much as possible, the key principles of adequate housing are applied, as considered possible in humanitarian contexts with generally limited availability of data.

Core Indicators

| Pillar | Indicator | Sub-indicator |
|-----------------|---|---|
| Pillar 1 | Ind 1: % of households living in safe and dignified dwellings (structure that protects them against external threats, health problems, weather, and natural hazards) | Ind 1.1: Level of safety and security provided by the shelter (defects, issues, damage, location / environment) Ind 1.2: Level of privacy provided by the shelter (overcrowding, partitions) Ind 1.3: Level of thermal comfort provided by the shelter (protection against weather) Ind 1.4: Level of security of tenure |
| Pillar 2 | Ind 2: % of households living in a functional domestic space | Ind 2.1: Able to cook Ind 2.2: Able to store food / water Ind 2.3: Able to sleep Ind 2.4: Able to perform personal hygiene Ind 2.5: Have access to electricity Ind 2.6 (optional): Able to perform any other core domestic function (as relevant to the context) |
| Pillar 3 | Ind 3: % of households with access to appropriate common services and infrastructure | Can include access to education, health care, electricity, water, sanitation, transportation, etc. (as relevant to the context) |

Shelter Needs Overview

Shelter Needs Overview

SSC
Analysis

The output of the SSC is a comprehensive standalone analysis summarized in Shelter Needs Overview products to inform strategic decision-making processes

Used for advocacy products to advocate for funding

Inform Shelter Cluster strategy

Inform JIAF
(sectoral and inter-sectoral analysis)

Inform HNO / HRP
(sectoral and inter-sectoral chapters)

Report Template & Content

TABLE OF CONTENTS

Summary of Humanitarian Shelter Needs and Key Findings

Key Messages

Part I. Impact of the Crisis and Humanitarian Shelter Conditions

- 1.1. Context of the Crisis
- 1.2. Shocks and Impact of the Crisis
- 1.3. Scope of Analysis
- 1.4. Humanitarian Shelter Needs Conditions and Severity of Shelter Needs
- 1.5. Number of Shelter People in Need

Part 2: Risk Analysis

- 2.1 Risk Analysis

Part 3: Situation Analysis and Monitoring of Needs

- 3.1 Situation Analysis
- 3.2 Monitoring of Needs

Thank You!
