

## BETTER PROGRAMMING INITIATIVE

ENABLING TIMELY & EFFECTIVE INFRASTRUCTURE IMPROVEMENT & WINTERIZATION RESPONSE

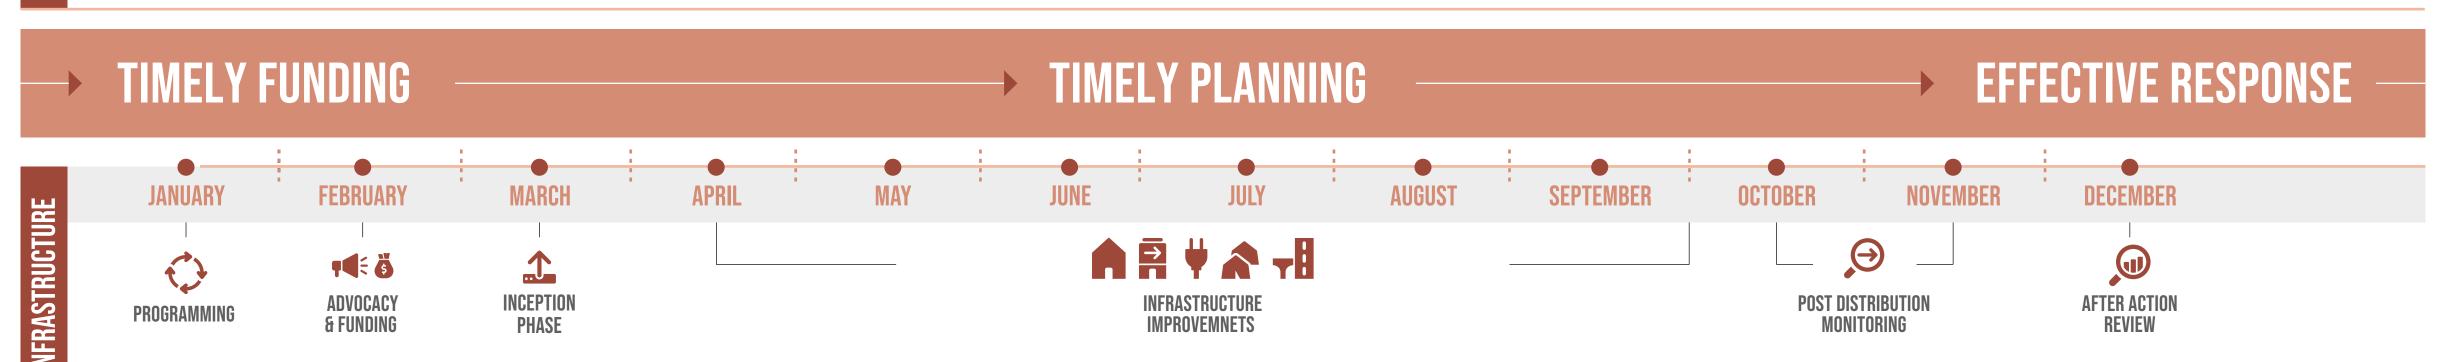

## INFRASTRUCTURE IMPROVEMENT & WINTERIZATION: DIFFERENT RESPONSES, DIFFERENT TIMELINES

TIMELY FUNDING, PLANNING AND IMPLEMENTATION FOR INFRASTRUCTURE AND WINTERIZATION REDUCES SUFFERING AND IMPROVES AID EFFECTIVENESS.

WINTERIZATION SHOULD BE INCLUDED IN THE REGULAR PROGRAMMING CYCLE. IT SHOULD BE INCLUDED IN THE HUMANITARIAN RESPONSE PLAN (HRP).

IMPLEMENTATION OF INTEGRATED ACTIVITIES (TENTS LEVELING, ROAD REHABILITATION, RAIN DRAINAGE, CULVERTS AND SOLAR LIGHTING) START BETWEEN APRIL AND OCTOBER (DRY SEASSON).

■ ALL RESPONSES WHILE THE SITES ARE FLOODED ARE EMERGENCY RESPONSES. INFRASTRUCTURE IMPROVEMENT CAN ONLY OCCUR IN THE DRY SEASSON.
