All bars are at the 100% level.

ITEM GROUPS functionality

- Support a first phase of nomenclature standardisation
- Facilitate aggregation of data and extraction of reports (previous attempts like LogIK unsuccessful)
- Does not prevent input of details or local names etc..
- Cannot be owned by « logistics » and should be kept up to date
- Needs to liaise with other initiatives

Pillar 1 – STOCKHOLM - discussion

Interest?

- In the process?
- In being involved?

YES

- 1 workshop to revise the existing Shelter Cluster Item Groups (around a couple of hours)
- **1 revision discussion per year to include any new item worth including** (probably not more than 30 min)
- Give you an access on STOCKHOLM
- Annual revision + engagement with other clusters on certain Items

NO

ESUPS will maintain the existing Item groups
(but we would rather having the specialist having their say...)
